As a testing service provider, the BotaniCERT laboratory is bound only by an obligation of means and undertakes to perform the Services ordered or have them performed only on samples actually submitted by the Customer and as is. The liability of the BotaniCERT laboratory is limited to the testing service for these samples only. Consequently, the laboratory makes no commitments and assumes no liability with regard to any extension of the test results to an entire batch. The use of the test results is the responsibility of the Customer, who will take the steps it deems appropriate. The BotaniCERT laboratory assumes no liability for illegal use that may be made of the documents it issues. The BotaniCERT laboratory does not recognize any partial copy of the text of the test report provided, since the test results should only be considered in their overall context and in their entirety.
